## I. INTRODUCTION

### Overview

1

### I.A. MEASURING DEVELOPMENT

- **Note I.A.1.** The Evolution of Measures of Development
  - 5
- **Selection I.A.1.** Why Are Services Cheaper in the Poor Countries?
  - 13
  - **Comment I.A.1.** The Productivity and Factor Proportions Explanations Again
    - 17
- **Selection I.A.2.** Burden of Poverty
  - 18
  - **Comment I.A.2.** Capabilities and Entitlements
    - 30

### I.B. ECONOMIC PERFORMANCE OF LESS DEVELOPED COUNTRIES:

#### THE RECENT PAST

- **Selection I.B.1.** The East Asian Miracle
  - 36
- **Selection I.B.2.** East Asian Crisis: An Overview
  - 42
- **Selection I.B.3.** Completing China’s Move to the Market
  - 48
  - 52
- **Selection I.B.5.** The Launching of the Reforms
  - 58
- **Selection I.B.6.** Indian Economic Reforms: Background, Rationale, Achievements, and Future Prospects
  - 61
  - **Note I.B.1.** The Triumph of Laissez-Faire?
    - 64
  - **Selection I.B.7.** Explaining Africa’s Development Experiences
    - 65

### I.C. THE DISCIPLINE OF DEVELOPMENT ECONOMICS

- **Note I.C.1.** Evolution of Development Economics
  - 69
  - **Comment I.C.1.** Classical Growth Theory
    - 72
  - **Comment I.C.2.** Development Economics as a Special Subject
    - 73
- **Note I.C.2.** New Endogenous Growth Theory
  - 75
## II. HISTORICAL PERSPECTIVE

**Overview: The Division of the World**

- **Selection II.1.** The Spread of Economic Growth to the Third World: 1850–1980  
  **Comment II.1.** State-owned Enterprises and Privatization
- **Selection II.2.** The Division of the World and the Factoral Terms of Trade
- **Note II.1.** Why Not Export First?
- **Note II.2.** The Lewis Model of the World Economy  
- **Selection II.3.** Agricultural Productivity, Comparative Advantage, and Economic Growth  
  **Comment II.2.** Income Elasticity of Demand for Food in the Matsuyama Model
- **Selection II.4.** Income Distribution, Market Size, and Industrialization  
  **Comment II.3.** Minimum Market Size in the Murphy–Shleifer–Vishny Model
- **Selection II.5.** Divergence, Big Time

## III. SAVINGS AND INVESTMENT

**Overview: Savings—The Engine of Growth?**  
- **Note III.1.** The AK Model
- **Selection III.1.** Is Fixed Investment the Key to Economic Growth?
- **Selection III.2.** Interest Rates in the Organized Money Markets of Underdeveloped Countries and Interest Rates Outside the Organized Money Markets of Underdeveloped Countries
- **Selection III.3.** Financial Liberalization in Retrospect: Interest Rate Policies in LDCs  
  **Comment III.1.** Financial Liberalization
- **Selection III.4.** Financial Development and Economic Growth in Underdeveloped Countries
- **Selection III.5.** Financial Development and Economic Growth: Views and Agenda
- **Selection III.6.** Good Policy or Good Luck? Country Growth Performance and Temporary Shocks  
  **Comment III.2.** Policies Versus Shocks: A Closer Look

## IV. INTERNATIONAL TRADE AND TECHNOLOGY TRANSFER

**Overview**

**IV.A. TRADE**

- **Selection IV.A.1.** Natural Resource Abundance and Economic Growth
- **Note IV.A.1.** Import-substituting Industrialization and the Infant-Industry Argument
- **Selection IV.A.2.** Typology in Development Theory: Retrospective and Prospects
- **Selection IV.A.3.** An Exposition and Exploration of Krueger’s Trade Model  
  **Comment IV.A.1.** Moving Up the Ladder and Changes in Relative Costs of Factors of Production
Selection IV.A.5. Exchange Control, Liberalization, and Economic Development 187
Selection IV.A.6. Trade Policy Reform
  Comment IV.A.2. Stabilization-cum-Liberalization Programs 193
Selection IV.A.7. Getting Interventions Right: How South Korea and Taiwan Grew Rich 195
Note IV.A.2. Tradeability of Intermediate Goods, Linkages, and Bottlenecks 202

IV.B. FOREIGN CONTACT AND TECHNOLOGY TRANSFER 204
Note IV.B.1. Learning in International Production Networks 204
Selection IV.B.1. Technology Gaps Between Industrial and Developing Countries: Are There Dividends for Latecomers? 206
Selection IV.B.2. The Benefits of FDI 209
Note IV.B.2. Trade as Enemy, Handmaiden, and Engine of Growth 211

V. HUMAN RESOURCES 213
Overview 213

V.A. EDUCATION 216
Note V.A.1. Three Views of the Contribution of Education to Economic Growth 216
Selection V.A.2. Economic Impact of Education
  Comment V.A.1. Ability Differences, Spillovers, and the Returns to Education 226
  Comment V.A.2. Education and Development 227
Selection V.A.3. Interpreting Recent Research on Schooling in Developing Countries 229
Selection V.A.4. Schooling Quality in a Cross Section of Countries 234
Selection V.A.5. Creating Human Capital 237

V.B. POPULATION 241
Note V.B.1. The Size of the World’s Population and the Size of the Average Family 241
Selection VB.1. Economic Approaches to Population Growth 242

V.C. HEALTH AND NUTRITION 249
Selection V.C.1. Health and Nutrition 254
Selection V.C.2. Investing in Health 257

V.D. GENDER AND DEVELOPMENT 263
Selection V.D.1. Women’s Education in Developing Countries: An Overview 263
Selection V.D.2. Women in the Labor Force 271
Selection V.D.3. Women, Poverty, and Development in the Third World 275
Selection V.D.4. Women in Developing Countries 280
Selection V.D.5. Missing Women 283
Comment V.D.1. The Grameen Bank and “Empowerment” of Women 287
Comment V.D.2. Gender-Aware Analysis 288

VI. MIGRATION AND THE URBAN INFORMAL SECTOR 289

Overview: The Evolving View of Urban Underemployment, the Informal Sector, and Their Connection with Rural-Urban Migration 289
Selection VI.1. Urban Growth in Developing Countries: A Demographic Reappraisal 293
Selection VI.2. Economic Development with Unlimited Supplies of Labor 297
Selection VI.3. A Model of Labor Migration and Urban Unemployment in Less Developed Countries 300
Note VI.1. The Lewis Versus the Harris–Todaro View of Underemployment in Less Developed Countries 302
Selection VI.4. Wage Spillover and Unemployment in a Wage-gap Economy: The Jamaican Case 307
Note VI.2. Econometric Studies of Migration 312
Selection VI.5. The Informal Sector 313
Selection VI.8. The Role of the Informal Sector in the Migration Process: A Test of Probabilistic Migration Models and Labour Market Segmentation for India 323

VII. AGRICULTURE 329

Overview 329

VII.A. THE IMPORTANCE OF AGRICULTURE FOR ECONOMIC DEVELOPMENT 332
Selection VII.A.1. Development Strategy in a Limping World Economy 332
Note VII.A.1. Food, Hunger, Famine 335

VII.B. DESIGNING AN AGRICULTURAL STRATEGY 336
Selection VII.B.1. Some Theoretical Aspects of Agricultural Policies 336
Comment VII.B.1. The Green Revolution 345
CONTENTS

Comment VII.B.2. Land Reform 346
Selection VII.B.3. The Agricultural Transformation 347
Note VII.B.1. Induced Technical and Institutional Change 350

VII.C. MICROECONOMICS OF THE RURAL SECTOR 352
Selection VII.C.1. The New Development Economics 352
Selection VII.C.3. The New Institutional Economics and Development Theory 359
Selection VII.C.4. Rural Credit Markets and Institutions in Developing Countries: Lessons for Policy Analysis from Practice and Modern Theory 361
Selection VII.C.5. A Survey of Agricultural Household Models: Recent Findings and Policy Implications 364
Comment VII.C.1. Supply Functions and Price Responsiveness 366

VII.D. AGRICULTURAL PRICING POLICY AND URBAN BIAS 368
Note VII.D.1. Agricultural Pricing Policy 368
Selection VII.D.1. Urban Bias 370
Comment VII.D.1. Rural–Urban Terms of Trade 373
Comment VII.D.2. The Rural–Urban Divide 373

VIII. INCOME DISTRIBUTION 375
Overview 375
Note VIII.1. Measurement of Income Inequality 379

VIII.A. THE IMPACT OF DEVELOPMENT ON INCOME DISTRIBUTION 382
Selection VIII.A.1. Economic Growth and Income Inequality 382
Selection VIII.A.2. Inequality, Poverty, and Development 387
Selection VIII.A.3. Growth and Income Distribution 391
Selection VIII.A.4. A Note on the U Hypothesis Relating Income Inequality and Economic Development 394
Selection VIII.A.5. Economic Development, Urban Underemployment, and Income Inequality 395
Comment VIII.A.1. The Informal Sector, Intraurban Inequality, and the Inverted U 399

VIII.B. THE IMPACT OF INCOME DISTRIBUTION ON DEVELOPMENT 401
Selection VIII.B.1. Distributive Politics and Economic Growth 401
Selection VIII.B.2. Income Distribution, Political Instability, and Investment 404
VIII.C. CASE STUDIES

Selection VIII.C.1. Economic Growth and Income Distribution in Taiwan, 1953–64 409
Selection VIII.C.2. Brazilian Size Distribution of Income 417

IX. POLITICAL ECONOMY

Overview 421

IX.A. THE (PROPER) ROLE OF THE STATE IN LESS DEVELOPED COUNTRIES

Selection IX.A.1. Public Policy and the Economics of Development 426
Comment IX.A.1. Development Planning 431
Comment IX.A.2. Governing the Market 432

IX.B. RENT SEEKING AND GOVERNMENT FAILURE

Note IX.B.1. What Are Rents? 434
Selection IX.B.1. The Political Economy of the Rent-Seeking Society 437
Comment IX.B.1. Complete Rent Dissipation Through Competitive Rent Seeking in the Harris–Todaro Model 440
Comment IX.B.2. The Relationship Between Rent Seeking and Corruption 440
Selection IX.B.2. Neoclassical Political Economy, the State, and Economic Development 442
Selection IX.B.3. India 446
Selection IX.B.4. Governments and Agricultural Markets in Africa 450

IX.C. STATE CAPACITY

Selection IX.C.2. The State as Problem and Solution: Predation, Embedded Autonomy, and Structural Change 476
Selection IX.C.3. Taking Trade Policy Seriously: Export Subsidization as a Case Study in Policy Effectiveness 495
Selection IX.C.4. Bureaucratic Structure and Bureaucratic Performance in Less Developed Countries 508

X. DEVELOPMENT AND THE ENVIRONMENT

Overview: Environmental Problems in Less Versus More Developed Countries 517
Selection X.1. Development and the Environment 520
Comment X.1. The “Environmental Kuznets Curve” 529
Selection X.2. North–South Trade and the Global Environment 531
| Comment X.2. Empirical Studies of the Impact of International Trade on the Environment in Less Developed Countries | 533 |
| Selection X.3. Deforestation and the Rule of Law in a Cross Section of Countries | 535 |
| Selection X.4. Determinants of Pollution Abatement in Developing Countries: Evidence from South and Southeast Asia | 544 |
| Selection X.5. Sustainable Development: Ecology and Economic Progress | 554 |
| Comment X.3. Weak Sustainability, Genuine Savings, and Green National Accounting | 559 |

Exhibit IX.A.1. Market Failure and State Intervention
PREFACE

The economics of development is one of the most exciting subjects in social science. Why, two centuries after the Industrial Revolution, are poverty and its attendant ills so prevalent in most of the world? And what can be done about it? Nobel Prize–winning economist Robert Lucas wrote of the questions addressed by development economics, “Once one starts to think about them, it is hard to think about anything else” [“On the Mechanics of Economic Development,” *Journal of Monetary Economics* 22 (July 1988), p. 5].

Development economics is also a very frustrating subject. Unlike most areas within economics, there exists no consensus on what the student should know. Two scholars can with equal justification write two completely different textbooks.

The aim of this book is to convey as much of the excitement of development economics and as little of the frustration as possible. To this end we have avoided writing the ordinary type of textbook, instead culling the most insightful readings from the diffuse field of development and bringing them into conceptual order. By using this distinctive approach we allow for a variety of perspectives while keeping in sight the most important overarching themes. The section “Using This Book” (p. xix) describes our strategy of combining excerpted readings (“Selections”) with our own “Overviews,” “Notes,” “Comments,” and “Exhibits.”

After being responsible for the previous six editions of *Leading Issues in Economic Development* over the past 35 years, Professor Meier has now selected Professor Rauch to upgrade and modernize this seventh edition and to perpetuate subsequent editions. This edition is mainly Professor Rauch’s effort. It reflects his desire to strengthen the analytical and quantitative dimensions of development economics and to illuminate contemporary—and future—problems of development policymaking. In all, it provides fresh and serious attention to the interplay between development experience, changing views of economists, and policy.

While this seventh edition maintains the format of previous editions, the inclusion of a new author has brought many changes relative to the sixth edition:

- New chapters on income distribution and on development and the environment have been added while other chapters have been consolidated.
- Most of the Selections and Notes are new.
- The representation in the Selections of articles from leading professional journals has increased.
- The Selections make greater use of statistical analysis, and an Appendix, “How to Read a Regression Table,” has been added to ensure that these Selections are easily accessible to all readers.

We wish to express our appreciation to the authors and publishers who have granted permission to use excerpts from publications for which copyrights exist. Specific acknowledgment is given with each Selection. Some parts of the original versions of the excerpted materials have been omitted out of consideration for relevance and to avoid repetition. In some instances, tables and diagrams have been renumbered and the footnotes have been deleted or renumbered.

We would like to thank a number of extremely busy people who generously took time out to provide advice or to comment on portions of the manuscript: Richard Carson, Graham Elliott, Peter Evans, and Dani Rodrik. We would also like to acknowledge the valuable research assistance of Neville Francis, Timothy Kane, Paula Lindsay, and Donald McCubbin. James Rauch wishes to thank his wife, Doris
Bittar, for making room in her life for this book during its final months of preparation. Kenneth MacLeod has been a very helpful and patient editor. Finally, we are grateful to the entire profession of social scientists whose writings on development provide the foundation for this volume.
USING THIS BOOK

Instructors and students can use this book more like a main text or more like a supplementary reader. To facilitate the latter approach the contents have been designed to allow individual freedom of choice in deciding what chapters and Selections to read and in what sequence. If the former approach is taken, the organizational and thematic guidance of the chapter Overviews can be followed and the chapters can be read in numerical order.

The chapters include the following materials:

Overviews: These are introductory essays that show how the subsequent chapter materials fit together and elucidate one or more overarching themes. They sometimes contain ideas that are not explicitly presented by the other chapter materials.

Selections: These are the core of the book. They present a broad sample of the major contributions by scholars and practitioners on the central issues in economic development. Each Selection has been edited for the sake of brevity and to highlight the points of greatest relevance for the chapter in which it appears.

Notes: These serve two purposes. One is to expound important ideas that are extant in the literature but are not presented as clearly or simply as we would like. The other is to present more original material that complements the Selections.

Comments: Like the Notes, these serve two purposes. One is to clarify or expand upon the immediately preceding Selection. The other is to suggest additional readings on the subject of the immediately preceding Selection.

Exhibits: These are tables and charts that provide empirical illustrations and data on topics under discussion. Starting with Selection III.1, some Selections include regression tables. Readers without econometric training are urged to refer to the Appendix to get the most insight from these Selections.

Peru: economic growth in, 89, 91; economic reforms in, 58; health in, 258–59; poverty in, 18; women in, 276, 278

Petite bourgeoisie, 423, 449

Petroleum, 491

Philippines, 3; agriculture and, 414; deforestation in, 536; economic crisis in, 44; economic growth in, 39, 86, 90, 91, 92, 93; environment and, 523; family planning programs in, 247; industrialization and, 98; pollution abatement in, 545, 546–47; trade reform in, 192; women in, 273; women's education in, 263, 268

Physical Quality of Life Index (PQLI), 7

Plantations, 86, 100, 180, 271

Pluralist theory, 453–54

Poland, 527, 529

Policy coherence, 496

Political stability/instability: deforestation and, 539–41; income distribution, investment and, 404–8; institutional indicators of, 472, 473, 474–75; in Sub-Saharan Africa, 458, 464–66

Pollution abatement, 544–53

Polonoreste projects, 528

Population, 2, 214, 241–48; agriculture and, 332, 333; deforestation and, 536–38, 541–42; of East Asia, 36; economic approaches to, 242–48; economic growth and, 82–84, 88–89, 91; environment and, 521; labor force and, 31–34; size of, 241

POSCO, 200

Poverty: balance sheet of, 35; burden of, 18–35; capabilities and entitlements in, 30; decline in, 36; environment and, 521; extent of, 19–20; health and, 259; income inequality, economic development and, 387–90; in India, 18, 36, 61; in Latin America, 54–57; women and, 18, 215, 275–79

Poverty gap, 19

Poverty line, 6, 18, 19, 54–55, 115

Prebisch, Raul, 52

Predation, 476, 479–80, 481, 487, 491

Price controls, 451

Price distortions, 36–37, 526

Prices: agricultural, 331, 337–38, 366–67, 368–69, 448; factor, 175, 176, 178; food, 254–55; in India, 448–449; service, 13–17

Primary export substitution (PES), 171, 173

Primary import substitution (PIS), 171, 173

Primary products, 155–56

Primary school education, 234, 237–39, 240, 263–64, 265, 266

Primary sector surplus, 180

Principle-agent approach, 508, 509

Privatization, 96

Probabilistic migration model, 292, 323–27
Rural-urban divide, 373–74
Rural sector.
Rule of law, 471, 535–43
Risk aversion, 352, 357, 358
Risk, 337–38, 478
Ricardo, David, 73, 298
Rhee Syngman, 482, 484, 485, 497, 499
Rent seeking, 422–24, 427, 444, 476; competitive, 437–39; corruption and, 440–41; defined, 434–36; in Harris-Todaro model, 440; political economy of, 437–40; quantitative importance of, 438–39
Rhee Syngman, 482, 484, 485, 497, 499
Rent control, 448–49
Rent seeking, 422–24, 427, 444, 476; competitive, 437–39; corruption and, 440–41; defined, 434–36; in Harris-Todaro model, 440; political economy of, 437–40; quantitative importance of, 438–39
Rhee Syngman, 482, 484, 485, 497, 499
Ricardo, David, 73, 298
Risk, 337–38, 478
Risk aversion, 352, 357, 358
RKF assumptions, 395–96
Rule of law, 471, 535–43
Rural sector. See also Agriculture: contractual arrangements in, 330, 356–58; credit in, 361–63, 447; informal, 314–15, 316–17; investment in, 332, 448; microeconomics of, 330, 352–67; new development economics and, 352–55; new institutional economics and development theory in, 359–66; recent tenancy models in, 356–58; reform in, 49–50; strategies for welfare improvement in, 343–45
