In spite of difficulties in the year of 2008, the NWT company has achieved positive dynamics of financial activities, has implemented a large-scale investment program and strengthen its market position.

The annual report is designed as a “Book of Secrets,” where the most important competitive advantages are disclosed for customers, employees and shareholders. This are the business secrets and commercial secrets, allowing the North-West Telecom to be one of the most successful operators in the telecommunications market in Russia.

The report uses the images of the code locks, safes, code secret language, and other systems of access to secret information, drawn as a “notes” — a mini double-page spread.
At the end of 2008, 117,000 households representing more than EUR 55 billion in assets under management were benefiting from private banking services in France, an increase of more than 6.5% on 2007.
