Publisher. Electrochemical Society, Inc. Publication type. Journals. 1969-1970, 1972-ongoing. Scope. The Journal of The Electrochemical Society (JES) is the leader in the field of solid-state and electrochemical science and technology. This peer-reviewed journal publishes an average of 450 pages of 70 articles each month. Articles are posted online, with a monthly paper edition following electronic publication. The Electrochemical Society is a learned society (professional association) based in the United States that supports scientific inquiry in the field of electrochemistry and solid-state science and technology. The society membership comprises more than 8,000 scientists and engineers in over 70 countr. 

Electrochemical Society. The society for solid-state and electrochemical science and technology. Formation. 1902; 117 years ago (1902).
